

1-B Data Visualisation

Present like a pro & Projects

- 1 Leading a Data Science project**
- 2 Visualisation practice**

What are we going to do?

- Put yourself in the shoes of a Data Scientist
- Generate and interpret data using the tools we viewed
- Present test results in week 8

Why is this useful?

- Practice your skills
- Establish your legitimacy in Data
- Gaining visibility

Deliverables

- Powerpoint presentation
- Your code (if you wrote some)

Agenda

- **3A** : Send your Database
- **6A** : Perform EDA
- **7B** : Analysis and interpretations of ML models
- **8A - 8B** : Polish & present

1 Leading the Data Science project

2 Visualisation practice

LET'S PRACTICE TABLEAU

1-B Data Visualisation
